

INCLUSIVE FUTURE INCLUSIVE PACT

PERSONS WITH DISABILITIES
BELONG HERE!

We demand an inclusive Pact for the Future: the world must reaffirm that persons with disabilities are active participants and equal beneficiaries of sustainable development

Today we stand at a crossroads.

The UN Pact for the Future must not reverse a decade of progress. We demand an inclusive future because persons with disabilities are not just beneficiaries—they are essential contributors to sustainable development.

We must ensure that persons with disabilities move from the margins to the mainstream of development agendas.

Join us in calling for an inclusive Pact that recognizes the role of persons with disabilities in sustainable development, and for the creation of a disability-specific ImPact Coalition.

Let's build an inclusive future where equal participation leads to equal progress for all.

What we need:

1. This sentence from para. 14 of the 2023 SDG Declaration must be included in the Pact for the Future: *"We commit to ensuring that persons with disabilities actively participate in and equally benefit from sustainable development efforts."*
2. Create a disability-specific ImPact Coalition, building on the work of the Stakeholder Group of Persons with Disabilities for the 2030 agenda.
